

Project

Former Standard Products Company Property
Demolition & Remediation Project
Port Clinton, Ohio

Client: Cooper Tire Company
Design Engineer: Hull & Associates
Value: \$2,700,000.00
Completed: 2016

ERC was hired as the General Contractor for this project. We hired and managed several subcontractors for Demolition, Concrete Crushing, Surveying, Compaction Testing, Asbestos & Universal Waste. ERC self performed the insitu soil mixing, waste characterization & sampling, disposal, backfill import & placement, grading & restoration. The project had multiple constituents as waste streams including haz levels of TCE, Lead & Vinly Choride along with non-haz levels of TCE, Lead and other petroleum based impacts. Over 10,000 tons of impacted soil was removed and disposed.
